A covert team of immortal mercenaries are suddenly exposed and must now fight to keep their identity a secret just as an unexpected new member is discovered. So if you didn't inform yourself (I only found out watching Charlize Theron in talk shows promoting the movie), this is based on a graphic novel series. Which makes sense if you watch it - this having a background before the film was made. Now even so, that doesn't mean this will be free of cliches - quite the opposite is true. Theron is really good and while as I mentioned you will and should be able to predict what is going to happen (even certain "twists"/betrayals and so forth). But the action is more than rock solid, even without knowing that Theron took her training very seriously! Who else would be driving around with a very real looking prop axe? Exactly! So while I understand that some might be cynical about the whole thing, you are missing out on just having fun with this. It's not the greatest movie ever made, but it doesn't pretend to be either. Charlize Theron stars with Kiki Layne in director Gina Prince-Bythewood's action-thriller, based on the graphic novel. Overview: Led by a warrior named Andy, a covert group of tight-knit mercenaries with a mysterious inability to die have fought to protect the mortal world for centuries. But when the team is recruited to take on an emergency mission and their extraordinary abilities are suddenly exposed, it's up to Andy and Nile, the newest soldier to join their ranks, to help the group eliminate the threat of those who seek to replicate and monetize their power by any means necessary. We've listed a number of streaming and cable services - including rental, purchase, and subscription options - along with the availability of 'The Old Guard' on each platform when they are available. Now, before we get into all the details of how you can watch 'The Old Guard' right now, here are some finer points about the Denver and Delilah Productions, Skydance Media, Marc Evans Productions action flick. Released July 10th, 2020, 'The Old Guard' stars Charlize Theron, Kiki Layne, Matthias Schoenaerts, Marwan Kenzari. The R movie has a runtime of about 2 hr 5 min, and received a user score of 72 (out of 100) on TMDb, which collated reviews from 3,389 experienced users. You probably already know what the movie's about, but just in case... Here's the plot: "Four undying warriors who've secretly protected humanity for centuries become targeted for their mysterious powers just as they discover a new immortal." 'The Old Guard' is currently available to rent, purchase, or stream via subscription on Netflix. Charlize Theron rocks swords, fantasy art axes, a truckload of different firearms, and a ferocious fringe in this proudly B-grade superhero tale. Annoyingly, director Gina Prince-Bythewood mostly hides great choreography behind bad editing and creates most of the actual violence digitally rather than with practical effects. It's a shame, because it looks like there's some real good shit is going on underneath all the rapid cuts and we know Theron can throw down with the best of them after Atomic Blonde. Still, there are enough flickers of excitement to entertain fairly well.
